

Our Sustainability Checklist

- We recycle all plastic we use.
- We unplug appliances like phone chargers that continue to use energy, even when they're not in use!
- We use LED light bulbs, which are more efficient and last longer than regular Halogen bulbs.
- We dress warmer when it's cold, even inside, rather than turning the heat way up.
- We limit the amount of red meat we eat.
- We use refillable water bottles instead of one-use plastic ones.
- We take short showers in order to not waste water.
- We limit the amount of driving we do by walking, biking, and taking public transportation when we can.
- We eat fruit that is locally grown and in season to cut down on growing and transportation costs of food.

Our Sustainability Resolution

As a family, we commit to

We recognize that climate change threatens our planet, and our resolution is to help make our planet more sustainable.
