

# BOTTOMLESS NOTEBOOK

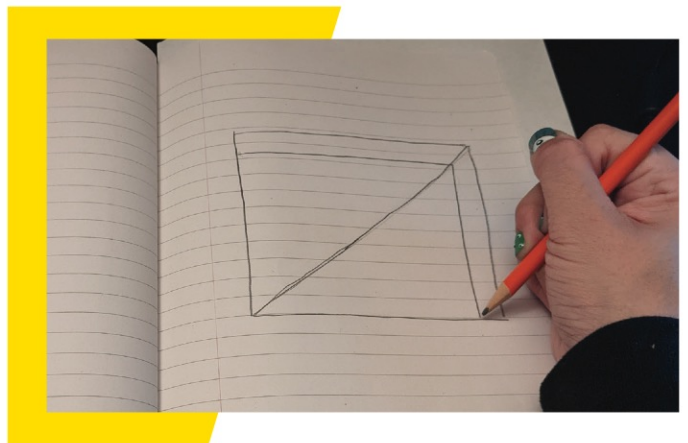

**Before you begin**, make sure you put another piece of scrap paper between the page you are using and the next page. Coloring in with markers can get a bit messy!

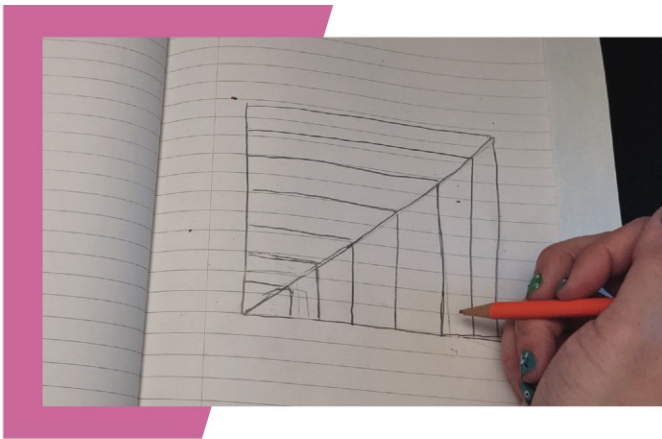

**Step One:** Draw a square.

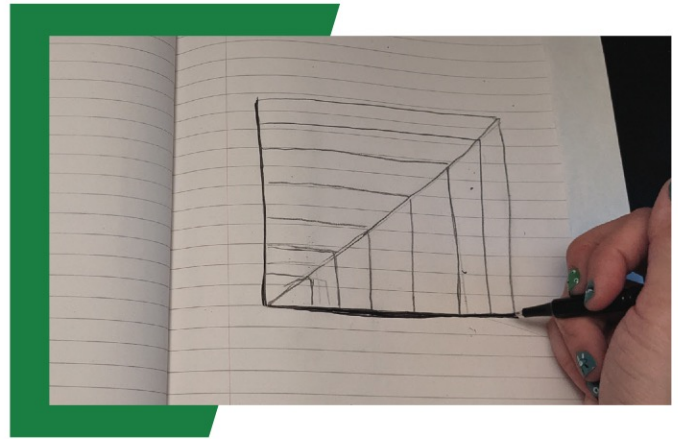

**Step Two:** Draw a diagonal line.

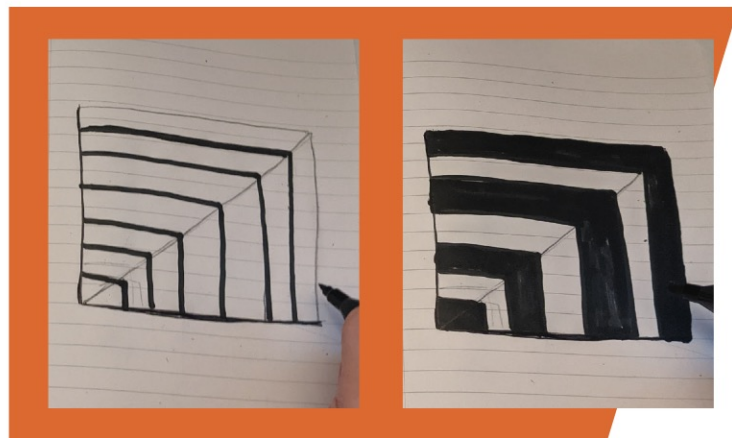

**Step Three:** Draw two lines like so...

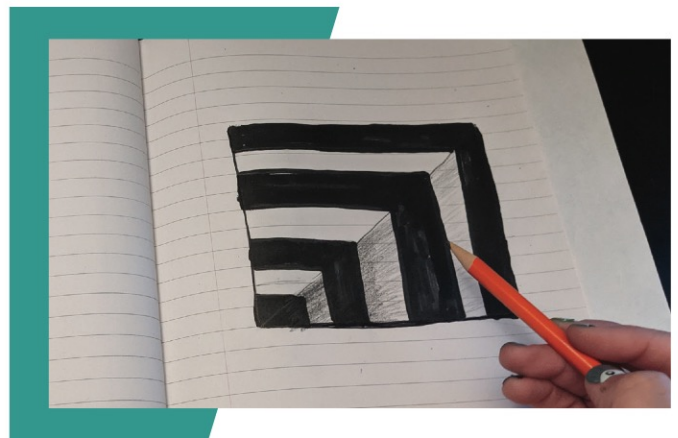

**Step Four:** Repeat this until you only have a tiny square in the corner left.

**Step Five:** With a pen, darken these two outside lines.

**Step Six:** With your marker, make the inside lines darker, and then color them in.

**Step Seven:** Use your pencil to shade in the right side of your image.

**All done, enjoy your illusion!**
